## PERSONAL PROJECTS

---

### Words App

- Created a user-centric Android app, boosting vocabulary through random word displays upon alphabet selection
- Seamlessly integrated the app with Google Chrome, providing instant word definitions and meanings.
- Crafted an engaging user interface using Kotlin and Android Studio, elevating the overall user experience.

### News App

- Created and launched a comprehensive Android app for real-time news updates
- Designed an intuitive user interface with RecyclerView for seamless navigation.
- Integrated API calls for current, relevant news articles, ensuring up-to-date information.
